

MILLESIMA

Bringing fine wine to you®

As a Bordelaise who was raised in a wine family, I've always been passionate about wine. My family has been in the wine-and-spirits industry for four generations. My father, Patrick Bernard, founded Millesima in 1983, and quickly became Europe's leader in fine wine sales. After much continued success, Millesima USA was born in 2006.

As a luxury retailer, we greatly emphasize the importance of provenance. We believe you deserve to know the lifecycle of your wine. We remove the concern of counterfeits, as only the chateau can guarantee authenticity, and you'll receive top-notch service through a trusted merchant.

I would also like to invite you to visit our Upper East Side retail store in Manhattan for a personalized wine concierge experience or simply contact us via email or phone.

Hortense Bernard,
General Manager

Delivery & availability

NYC items are immediately available for shipping. Items in Bordeaux will arrive within 3-6 months from purchase date.

What are Pre-Arrivals?

Pre-Arrivals are our Bordeaux wine collection aging in perfect conditions in our parent company's cellar in Bordeaux, France. Millesima USA is a branch of Millesima SA, the 5th largest buyer of Bordeaux classified growths since 1983 and serves over 92,000 private customers around the world.

By opening our Bordeaux cellar to the public, we offer unparalleled access to a library of 2.5 million bottles of wine representing all the most sought-after vintages and formats of Bordeaux's finest.

As Millesima SA sources wines directly from each property, these bottles have spent their lives in only two cellars, those of the producing Châteaux and Millesima SA. Given that these wines will be traveling by boat from Bordeaux, delivery can take from 3 to 6 months. We sell Pre-Arrivals in their original case by 6 or 12 bottle pack according to the estate, for single bottles please inquire.

BORDEAUX

The city “au bord de l’eau”, French for along the water, became famous for its wines when exportation began with the opening of the English wine market in 1152. In 1855, at the request of the Emperor Napoleon III, the best wines of the Left Bank of Bordeaux were classified by a panel of judges before being put on display for the World Exposition. This classification was by far the most ambitious ranking ever done of an agricultural product. The classification stands today and the Chateaux that were classified are still among the best in Bordeaux. However, many estates were not included in the 1855 Classification despite their production of excellent wines. Today these wines are often identified as Bordeaux, Bordeaux Superieur or even by their designation.

Located on the 45th Parallel, Bordeaux is blessed with temperate winters and long, warm summers that are ideal for growing grapes. Additionally, Bordeaux is home to two rivers that have a special influence on grape growing, the Garonne and Dordogne, that eventually merge to form the Gironde estuary. Vineyards located close to rivers tend to have sufficient warmth even in times of cold weather and humidity. Bordeaux boasts an abundance of soil types and climates and the rivers are also a factor in why Bordeaux is home to so many different wine styles. For example, the growth of noble rot - which enables winemakers to make the great sweet wines of Sauternes and Barsac - are a result of the proximity of the rivers.

Red wines from Bordeaux are made from a blend of grape varieties including Cabernet Sauvignon, Merlot, Cabernet Franc, Petit Verdot, and in some instances Malbec. White wines are traditionally made from a blend of Semillon and Sauvignon Blanc.

PREMIERS CRUS CLASSÉS

The left bank Growths (Médoc, Graves and Sauternes) were listed in the famous 1855 classification, whereas those of Saint-Emilion on the right bank undergo a new classification every decade. Not only do the First Growths symbolize Bordeaux, they are an important part of France's reputation and are celebrated around the world. The mere mention of their names can bring joy to ardent collectors and wine lovers of all stripes.

The Premiers Crus Classés are available in limited quantities.

IMPERIAL LIBRARY

Magnum. Double-Magnum. Jeroboam. Imperial. Balthazar. Nebuchadnezzar. Named after Biblical kings, there are over ten different bottle sizes in popular use around the world today. As they are expensive to produce and often contain the best wine of each vintage, few large format bottles are produced. In addition, large format bottles have a smaller ratio of air to wine exposure, allowing the wines to slowly develop over time, often leading to greater subtlety and nuance. Millesima has been collecting large format bottles since our inception. In our ancient cellar in the heart of Bordeaux lies our impressive Imperial Library comprising over 12,000 large format bottles.

DRY WHITE WINES

With limited production, dry Bordeaux whites are made by many estates across the entire region; however, the bulk of the production is centered in Entre-Deux-Mers, Pessac-Leognan and Graves. Dominated by Sauvignon Blanc, which provides crisp, herbal and lively notes, the majority of dry whites also include Semillon, which is lower in acid and has more of a honeyed palate and texture. Lively when young, quality Bordeaux wines can age for over 20 years and develop richer, smoother taste.

SAUTERNES & BARSAC

The sweet white wines of Sauternes are made roughly 50 kilometres upstream from the city of Bordeaux, between the left bank of the Garonne river and the Landes forest. The vineyards include several villages from the world-famous Sauternes itself to lesser known communes such as Barsac, Bommes, Fargues and Preignac. Made from the classic white Bordeaux grape varieties, Semillon, Sauvignon and Muscadelle, these complex, rich, sweet wines owe their distinctive quality to late ripening and the grace of *Botrytis Cinerea*, or Noble Rot.

BURGUNDY

Burgundy, known as Bourgogne in France, is one of the most important and highly sought-after wine regions in the world. Burgundy's rich viticulture history dates back to at least the 2nd Century, when Cistercian Monks began to first notice the distinct aromatic differences produced by each vineyard - or differences in each terroir. It was their observation that would serve as the basis for the modern organization of Burgundy vineyards, which include nearly 100 distinct appellations. Unlike Bordeaux, Burgundy classifications are focused on geography, not estate. The most prestigious ranking is Grand Cru, followed by Premier Cru, Villages and Vin de Bourgogne. The majority of Burgundy's grape crop is placed on large holdings by independent wine merchants, or negociants, who produce wine with these grapes under their own names.

The Côte d'Or, the most famous and expensive of Burgundy's regions, containing both the Côte de Beaune and the Côte de Nuits, produces some of the world's best Pinot Noirs and Chardonnays. The Côte de Beaune, with its famous AOCs of Puligny-Montrachet, Meursault, and Corton-Charlemagne, is the home of 7 of Burgundy's 8 white Grand Cru vineyards and is responsible for the production of extraordinary Chardonnays. The Côte de Nuits, with 22 out of 23 of the region's red Grand Crus vineyards, including the world-renowned Vosne-Romanée, is the heart of Pinot Noir territory. Chablis, despite being in the world's most famous Chardonnay region, is still underestimated.

Embracing the rich history and diversity of Burgundy, Millesima is pleased to present this collection of Burgundy wines, ranging from Grand Crus to Villages, from celebrated negociants and acclaimed small producers.

All Burgundy wines are available in our NYC Store.

CHAMPAGNE

The world's most celebrated sparkling wine, produced only in the Champagne region of France, is defined by its unique combination of subtly nuanced force, balance and fruit. Romans were responsible for planting the first vine in the cool northeast corner of France around the 5th century. Champagne classically honors the Maison, or Champagne "House", rather than the region. Producers can choose to label their wines as "Grand Cru" or "Premier Cru", if they feel the grapes come from the region's highest-rated and finest vineyards.

Champagne is produced using the famed "méthode traditionnelle". This method of production, while used in other countries to produce sparkling wine, was developed exclusively in the Champagne region and involves second fermentation in the bottle. Vintage Champagne, a bottle designated by year, is only produced during the best of harvests and under ideal conditions. Rare and refined, these Champagnes are the best of the best and are enhanced by extended aging on the lees, which provides greater depth of freshness, and the famed "brioche" notes. Typically a blend of Chardonnay, Pinot Noir and Pinot Meunier, Champagne is also produced in special cuvees – or blends – such as Blanc de Noirs, made with only red grapes, and Blanc de Blancs, only with white grapes. Champagne terroir is particularly important in the vigneron's production method. For example, Chardonnay grown in the Cote des Blancs will generally be crisply acidic and intensely chalky. The same grape grown across the river in Vallée de la Marne will produce a wine that's broader in feel and fuller. Enjoying Champagne with food is highly pleasurable yet commonly overlooked. Even though Champagne is often drunk as an aperitif, it pairs beautifully at the table due to its vibrant acidity, low alcohol and unrelenting vitality.

Celebrating the rich history of Champagne and bringing the traditional drink of royalty to you, Millesima is pleased to present this excellent collection of Fine Champagnes. From boutique, "grower style" producers to major players, Millesima's collection is sure to have the perfect bottle for all of your celebratory moments.

All Champagne wines are available in our NYC Store.

ITALY

The art of "cultivating the vine" in Italy dates to before the Etruscan Era, yet the Romans were responsible for the proliferation of vineyards. They generously spread cultivation of the famous grape vines across their vast empire with the help of their military occupation of other lands. Today Italy is still a major player in the world of fine wine. Over the centuries the Italian wine-making industry faced significant challenges – from world wars to trade barriers – and the country's prestigious viticultural efforts began to decline in some regions. However, today Italy is once again known for its fabulous, elegant and collectable fine and rare wines.

Italy is one of the largest wine producing countries in the world. With vineyards covering the length and width of the country, Italy has some of the richest variety of styles, distinctive terroirs and indigenous grape varieties in the world. Its appellation system is based on the French structure and can be split into several classifications: DOCG, DOC, and IGP/IGT. Today, European standards have led to new denominations of the DOP and IGP classifications: DOCG and DOC are now DOP wines, while IGP and IGT are now IGP wines.

While wine is made all over Italy's twenty designated regions, Piedmont and Tuscany are the most well-known and produce some of the country's oldest and most famous wines, including Barolo and Barbaresco from Piedmont and Brunello di Montalcino, Vino Nobile di Montepulciano and Chianti from Tuscany. That being said, really distinctive regional gems and special wines can be found throughout the country, including Pinot Grigio from Alto Adige, Aglianico from Campania, Prosecco from Veneto, and Lambrusco from Emilia Romagna, among many others.

All Italian wines are available in our NYC Store.

PIEDMONT

Lined with the Alps and the Apennines, Piedmont produces extraordinary red wines made from local grape varieties and from extremely characteristic terroirs. One of their finest grape varieties, Nebbiolo, provides all its specificities to the two most famous wines of the region, Barbaresco and Barolo.

A genuine collection of fine wines

Millesima USA was established in 2006 with the mission of providing an unparalleled wine selection and dedication to customer service to the US Market. These are the same principles that has helped established its parent company, Millésima S.A., as Europe's undisputed leader in the sale of fine wine futures and grand cru wine directly to consumers. Millesima USA offers a **large selection of fine and rare wines** at our **storefront on Manhattan's Upper East Side**, including the most sought-after French, Italian, and New World wines. We personally select each wine we sell for its quality and value and guarantee the **highest quality standards** for **wine storage, shipment, and customer service**. Millesima USA also specializes in the sale of **wine futures** with supply guaranteed through its parent company in Bordeaux. U.S. consumers are offered the **same selection as in Europe**, including **125 labels of Bordeaux's finest wine** ranging in formats from half-bottles to imperials.

Quality and authenticity

We exercise great care in making our wine selections to ensure quality at all price levels. Wines which we offer for sale, whether they are \$15 or \$150 a bottle, are wines which we believe provide a high level of quality in terms of their price and denomination of origin. We will not offer wines that do not meet our high standards. As our parent company Millesima SA buys its wines directly from each property, our collection of Bordeaux have spent their lives in only two cellars, those of the producing Châteaux and Millesima SA before arriving to the United States.

An exceptional choice

We take pride in our product selections. Our list of Bordeaux is particularly extensive and covers Crus Classés and Crus Bourgeois from leading properties. We also have a range of wines from other parts of France as well as Italy, USA, Spain, Australia, and other countries, all of which have been selected with the same care as our Bordeaux portfolio. We have made a serious effort to find limited production wines not available from other merchants. All our wines are stored under temperature-controlled conditions as all fine wines should be.

Punctual and professional Delivery

At Millesima, we strive to deliver your wines as promptly as possible. You can expect to receive any wine available at our New York store at your indicated shipping address within one week, barring weather-related delays.

MILLESIMA

A Family Story

Founder Patrick Bernard established Millesima in 1983 in Bordeaux and developed the company into Europe's leading fine wine mail order merchant thanks to his expertise and reliability. Millesima has also become the flagship of a family group created in 1928 by his grandfather, Lucien Bernard. In 2007, Fabrice Bernard, Patrick's son joined the company as marketing manager and today is Millesima's CEO. Utilizing his expertise for online marketing, business development as well as his enthusiasm for wine, Fabrice has helped lead Millesima to the forefront of online marketing and content in Europe. In 2006 Millesima SA established its American branch, Millesima USA in Manhattan's Upper East Side and in 2010 Hortense Bernard, daughter of Patrick, took the helm as General Manager. Eagerly sharing her family's philosophy and passion for Bordeaux, she is committed to providing the US a world wide selection of wines as well as unparalleled access to Bordeaux's legendary icons.

Working hand in hand, the Bernard's aim then, as it is now, was to bring some of the world's greatest wines directly from the Châteaux to wine lovers around the world. For over 30 years, generation after generation the family has poured all their passion into creating an extraordinary stock of more than 2,500,000 bottles ranging from half bottles to Nebuchadnezzar aging slowly in their mid-19th century cellars.
